

300 Meter Olympian Project

We need your help! I am working on a project to identify shooters who were on 300 Meter US Olympic Shooting Teams or Team alternates. The list below is a sample of Minnesota Olympians. 300 M shooters are hard to track since a lot of the old records only have medal winners and usually country. Usually you cannot find not total participants lists. I am looking for name, location date and if they were shooters or alternatives. Any help or leads would be greatly appreciated!
